## How to find the crag:

Drive from Finale Ligure in the direction of Pietra Ligure on road S.S.1. Turn left after 2,5 km and follow the signposts for Verezzi. Turn right again on to the first road and continue 200 meters, then turn slightly right on to the small road "Via della Cornice". At the hair point, continue straight forward, pass the big car park and continue on the gravelled road for about 200 meters. Park to the left on a big lay bay. Follow the road and turn left on the track. After about 200 meters, just where two trees stands on each side of the track, turn right on to a small track that leads you to 1.1. "Il Cimitero". Crag no.1. 2. has a long access and not very nice routes, the popular ones is 1.1. and 1.3.

### How to find the crag:

Drive from Finale Ligure in the direction of Finalborgo and the entrance to the highroad. Turn left in the direction of Finalborgo, then turn left after the bridge (and before entering Finalborgo) and park at a public car park outside the Finalborgo (city-wall). Walk back over the bridge, turn left and after 150 meters, cross the road on to a "dirt road" and follow the track with tree red points mark. After about 15 minutes, turn right on to a small track that leads to the crag. Long approach, not the best climbing and compared with other crags, not worth fighting for.

#### How to find the crag:

Park at any of the public car park outside the old part of Finalborgo. Enter the city and walk in the direction of the old Castle that you will see on a hill above the city. Just before you reach the Castle, in a hair pint, turn left on a small track that leads to this track. The crag is located above an Industrial estate, not beautiful, no nice climbing.

### How to find the crag:

Drive from Finale Ligure in the direction of the highroad. Turn right in the direction of Finalborgo and continue through the town on small roads. Follow signposts for Feglino. In a T-junction, turn right in the direction of Orco. Pass the Refuge and continue about 1 km. On the right you will find a small road that leads to a small village. Park on a lay bay and follow this road by foot. In the T-junction, hold right and turn right on to the marked track just before a quarry. You will reach the first crag, "Un Domani", after about 10 minutes.

You can also reach the crag by driving from Finalpia in the direction of Magnone/S. Filippa. Turn left in the direction of Boragni/Orco and pass both these villages. About two kilometres later you will see the crag.
