## **We protect our Topos.**

When you buy a Topos from coronn.com it is a copyright protected product you receive. On the right side of this page you can read the first article from the "Act of Copyright".

In this PDF document that you have received you will find, under "Document summary", a copyright code that is personal for your copy of the document. That means, we are able to track the original buyer if we should find a copy that has been distributed to other people.

You have paid for your copy, don't send a copy to a friend. Of course, if you have printed out a copy you and your friends at the crag can use the copy, as with a printed book.

This page might don't concern you. You maybe think that this is obvious. That's good, just drop the page.

The reason that we need this page and this information in the Topos is because we occasionally in the past has been forced to take legal action when our Topos has been distributed for free at other web sites, and when we find copies that have been distributed from friends.

If you find illegal copies on the net, in a shop or anywhere else, please inform us.

## Slovenia, and crags in Croatia and Italy

1. Napoleonica
2. Osp
2. Mišja peč
3. Črni Kal
4. Vela Draga
5. Bled area
6. Kotečnik

This Topos present 4 of the rock climbing areas in Slovenia that is regarded to be the best. Osp and Mišja peč near the Italian border offers mainly hard climbing and has extremely many routes from 8a and up. Črni kal, located only a couple of kilometres from Osp, offer a nice crag and surroundings also suitable for families.

Bled, with several crags, is considered to be one of the most beautiful areas in Slovenian. Suited on the border to the Julian Alps, with emerald-green lakes, castles on top of Limestone crags the area is very special. Easy access to most of the crags and superb climbing.

Kotečnik is also considered to be one of the top areas for rock climbing in Slovenia, embedded in the forest the crags are the most popular crag in Slovenia during hot summer month.

Often the cheapest flights is to be found to Venice, and because of that we also present Napoleonica, an area just at the outskirts of Trieste. Medium quality climbing but with a beautiful view over the "Golfo di Trieste".

Vela Draga offer a magic atmosphere where water and wind actions have created unique rock formations. If you visit this area, Vela Draga should be on your list of places to visit.

The area has a nice climate and rock climbing is possible even in the winter, though December to the end of February is unpredictable and especially in Bled and Kotečnik you might meet snow.

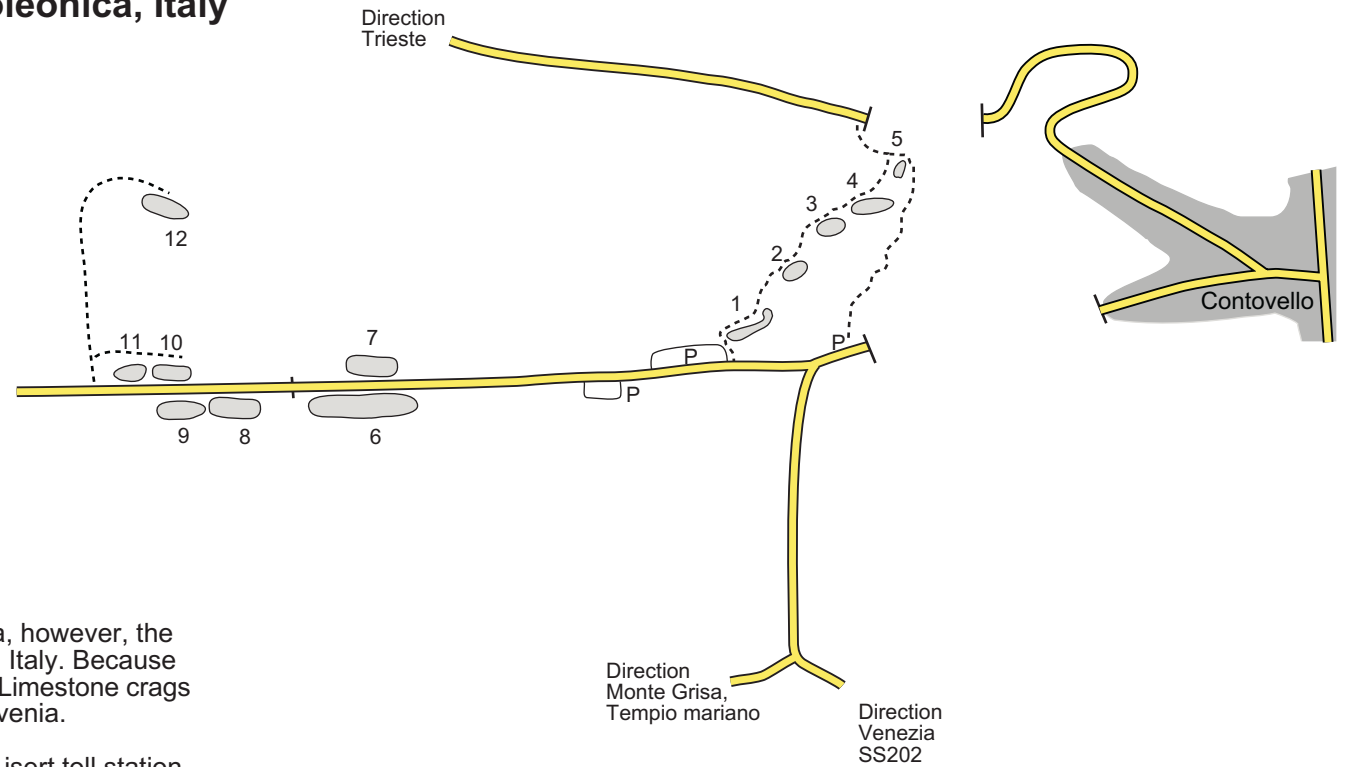

Most of the population talks good English, in the areas near Italy Italian is also well understood, people are friendly and Slovenia is healthy.

At [www.coronn.com](http://www.coronn.com) you can download a Vela Draga screensaver for free. 8 beautiful pictures from the climbing area. You will also find a screensaver with beautiful pictures from the area of Bled.

## Falesie triestine alla ribalta, Napoleonica, Italy

How to find the way to these crags:

In this Topos you will find mainly crags in Slovenia, however, the flights with low cost is often to be found to Venice, Italy. Because of that we also present Napoleonica in the Topos. Limestone crags just at the outskirts of Trieste, at the border to Slovenia.

On the highway from Venice to Trieste, pass the Lisert toll station and continue to the Prosecco exit. Turn left and follow the signpost for Santuario Monte Grisa. In a T-junction, turn right (see map, T-junction Monte Grisa/Tempio mariana - Venezia SS202). After about 100 metres, turn left (Strada Vicentina) and park at the car park.

This is a popular crag and in combination with the town and the nightlife a perfect place.

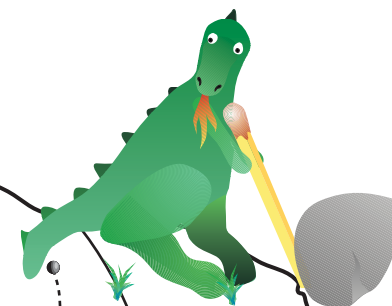

The Santuario Monte Grisa is a very characteristic building easy to locate from the road by the cost-line.

Climbing is in many cases just from the road, easy accessible and with a nice view over Trieste.

## 2. Keymap, Mišja Peč

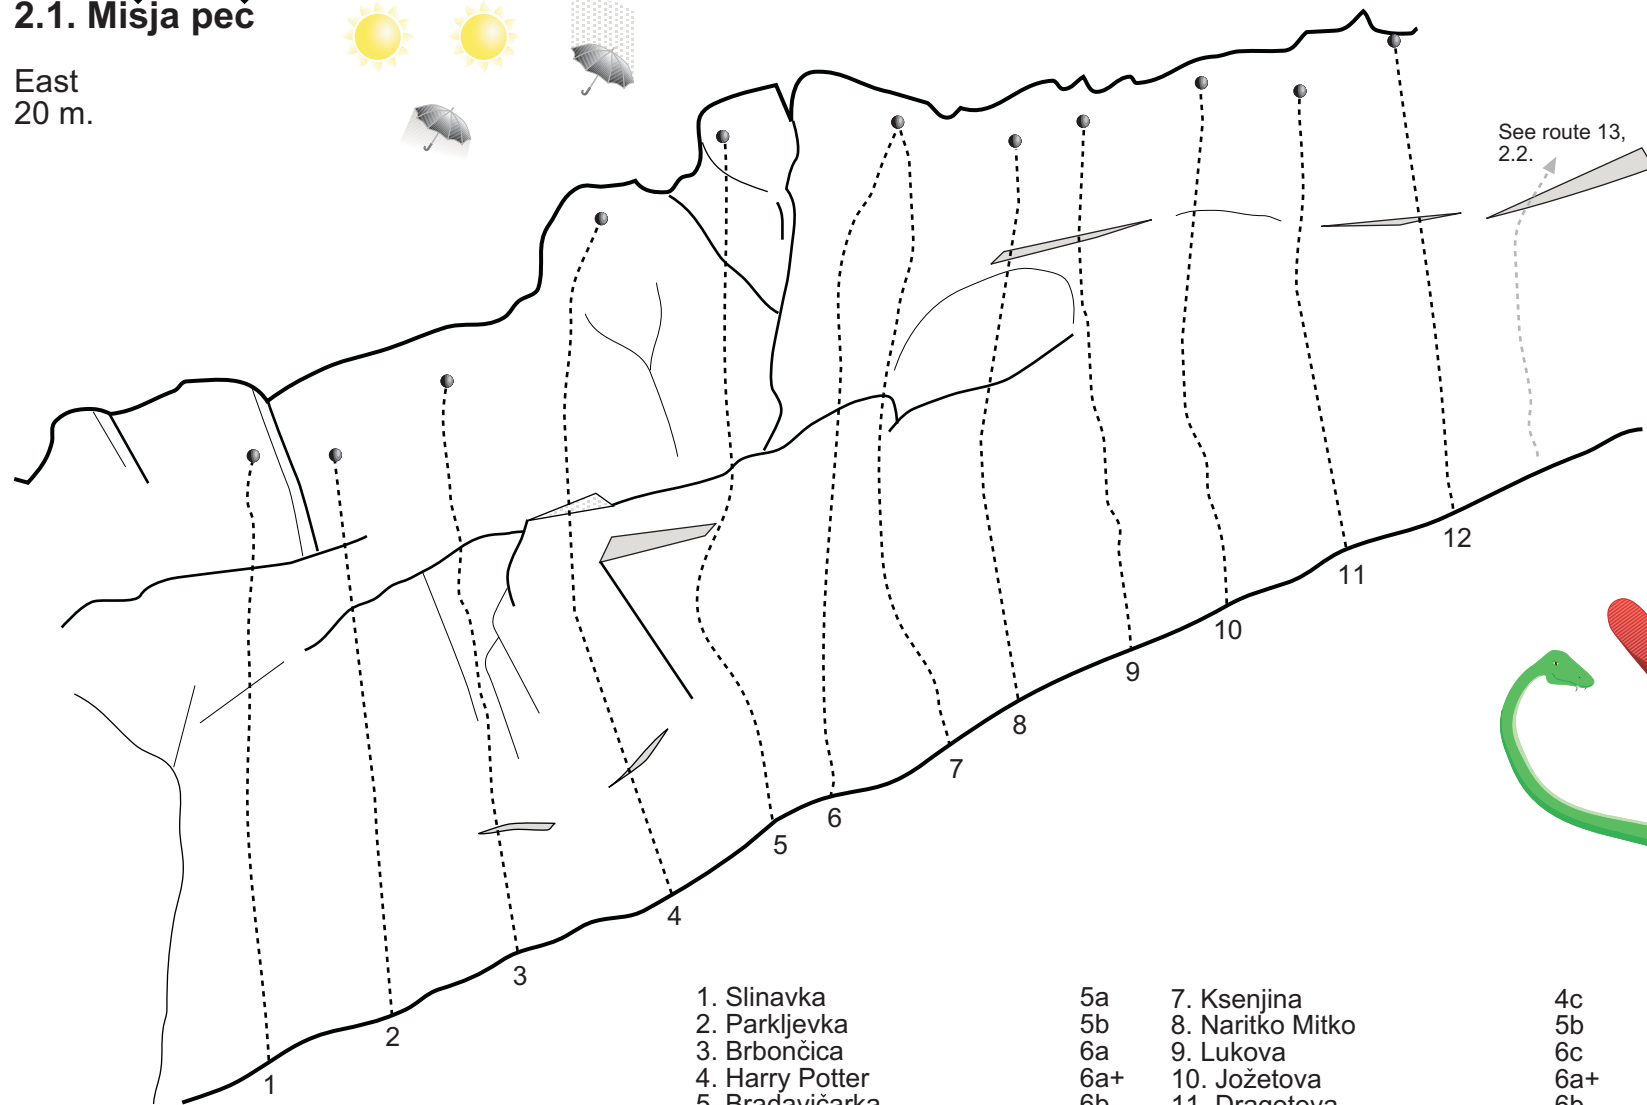

### How to find the crag:

**Osp and Mišja peč.** Drive from Koper in the direction of Ljubljana on road nr. 10. After 11 km, just before a sharp bend, turn left on a small road that leads to Gabrovica and Osp. 400 metres before you reach the village Osp a small gravelled road to the right will take you to a big car park. Park and walk for about 10 minutes to the crag. In Osp, drive in to the village and take the small road to the left that leads down to the camping ground. Park here. Walk in the direction of the crags, turn left outside the fire station and continue in the direction of the Church. Just before the Church, turn right and follow the road to the crag. To reach the other sector with multi pitch routes, walk from the camping in the direction of Mišja peč, turn left just after the dry river and follow the track to the crag.

## Croatia, Vela Draga

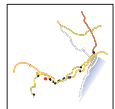

**How to find Vela Draga:**  
From Reka (Rijeka), drive in the direction of Pazin/Buzet. After 25 km you will drive through the Tunnel of Učka. Turn right just after the tunnel and then turn left in the T-junction. Park on the left side of the road after 500 metres just before a small bridge. Walk in the direction of the house, pass that, a garage and some houses for animals and continue on this road which will become a track, marked with red/white marks. After about five minutes you will reach the crags. Click on the diagram of the crags to view a keymap.

## Keymap, Vela Draga

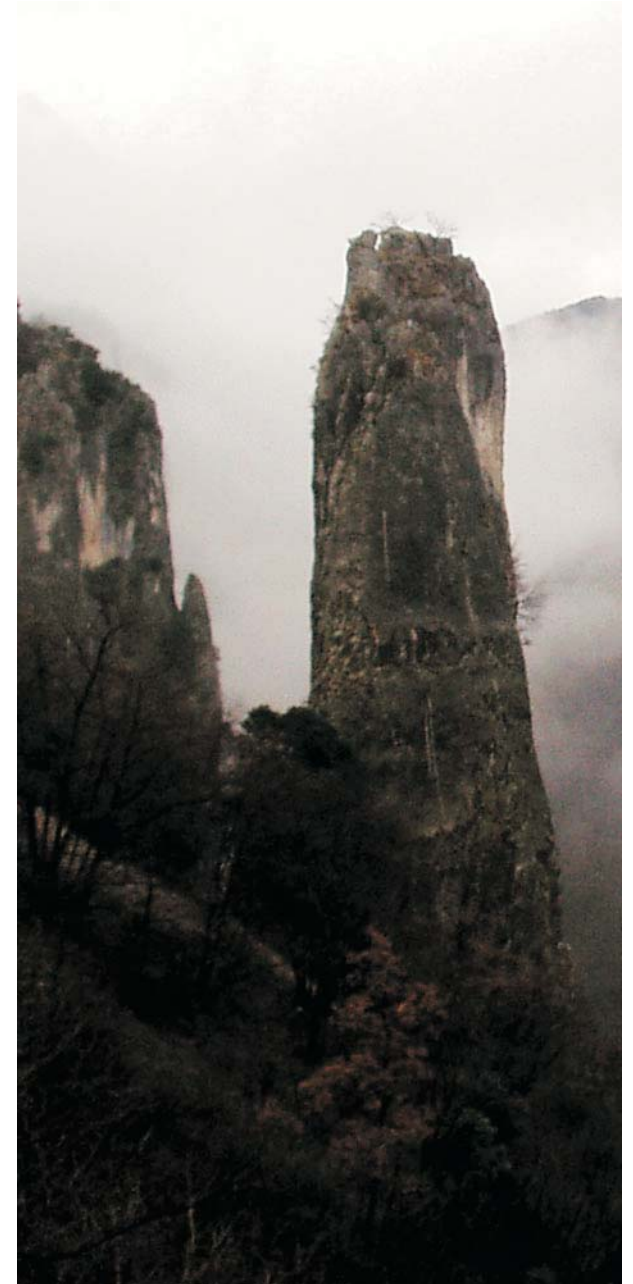

Follow the track when it turns left down in a cleft. About 20 metres down you will find the first route. The easy way to acquaint oneself with the area is to follow the track down to crag number 2, a characteristic crag with a natural tunnel going through it.

## Slovenia, crags around Bled

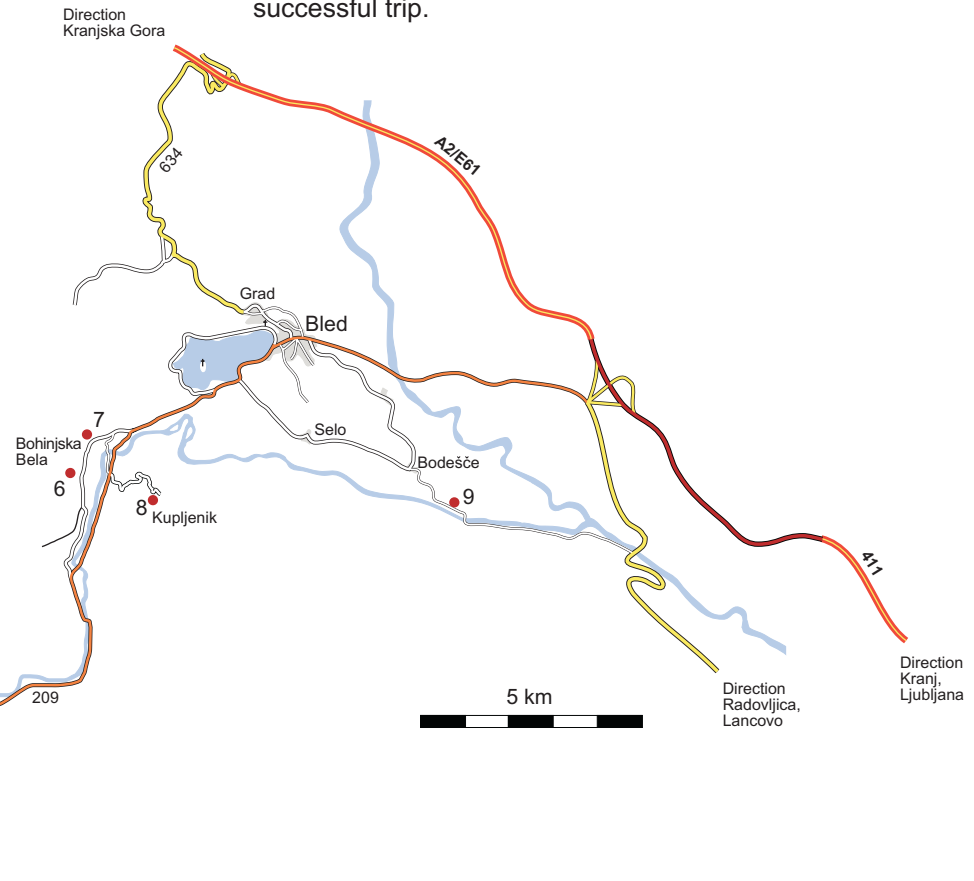

### About:

Bled and the surrounding area is regarded to be the nicest area for recreation in Slovenia, with its pre-Alp scenery, lakes, ski areas and beautiful nature.

From Bled it will take you about 1,5 hour to reach Osp, and it will take you the same time to reach Vela Draga. All together, Slovenia and Vela Draga in Croatia offers a perfect combination of climbing, nature, culture and we assume everyone would be satisfied after a week or two.

Those crags, all near the tourist village Bled, offers a lot of routes in various grades, often perfect for families, near water and with shops, camping grounds, quite sheep pensions and all you need for a successful trip.
